UHU[®] **ENAMEL REPAIR** White liquid for repairing damaged enamel and lacquer

PRODUCT DESCRIPTION

White repair assistant with brush applicator, suitable for repairing scratches, splinterings, bathtub and sink damage, etc. Resistant to hot water, usual household cleaners and diluted bases.

FIELD OF APPLICATION

For mending scratches, splintering or all kind of damages on white bathtubs and sinks.

PROPERTIES

- White
- \cdot Water, temperature and chemical resistant
- · Liquid for repairing damaged enamel and lacquer
- \cdot Brush in cap
- · Discoloring resistant

PREPARATION

Working conditions: Do not use at temperatures below +10°C **Surface requirements:** Surfaces which are to be touched up must be clean, dry and free of oil, grease and dust. **Tools:** Brush included in bottle cap.

APPLICATION

Directions for use:

Apply a thin coat of the repair assistant using the brush and leave to dry for 24 hours. If necessary, apply another coat and leave to dry for a further 24 hours. Repeat the process a number of times, if needed.

Stains/residue: Remove fresh stains immediately with acetone.

Advice: If necessary, the enamel repair assistant may be diluted with acetone; a colour paste can be used to dye the repair adhesive.

Points of attention: Contains volatile, highly flamable liquid solvants; appropriate precautions should therefore be taken during storage or during usage. Ensure proper ventilation when used on large areas.

CURE TIMES*

Final bonding strength after: approx. 24 hours

* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

TECHNICAL SPECIFICATIONS

Appearance: white Chemical base: synthetic resins Consistency: Medium viscosity Solid matter: approx. 46 % Density: approx. 0,81 g/cm³

STORAGE CONDITIONS

Store in a dry, cool and frost-free place.

PHYSIOLOGICAL PROPERTIES

The dried adhesive is inert, completely neutral and physiologically indifferent.

PACK SIZES

Bottle 23g

Note: This information is the result of carefully executed tests. This Technical Data Sheet has been prepared to the best of our knowledge to provide you with advice when gluing. We cannot be held responsible for the results or any damage suffered, as the variety of factors involved (type and combination of materials and working method) are beyond our control. Users have to carry out their own checks and trials. Liability can only be accepted for the consistently high quality of our product.
